

DEPARTMENT OF FISHERIES
CANADA

3 1761 12000452 8

QUARTERLY BULLETIN

OF

SEA FISHERY STATISTICS

NOTE

The values herein shown are based on the prices of the various kinds of fish and shellfish when first brought to land by the fisherman. The figures contained in the Quarterly Bulletin are subject to revision and change before publication in the Annual Statistical Report.

At different seasons and in different districts there are variations in the quantities of fish and shellfish brought to land. The conversion factors used are those based on partially-prepared product. The conversion factors used are those which have been calculated as more accurate for application for all districts throughout the year as a whole.

PERIOD: JANUARY - DECEMBER, 1932

ISSUED BY THE AUTHORITY OF THE MINISTER

NOTE

The values herein shown are based on the prices of the various kinds of fish and shellfish when first brought to land by the fishermen. The figures contained in the Quarterly Bulletins are subject to revision and change before publication in the Annual Statistical Report.

At different seasons and in different districts there are variations in the quantities of fresh fish or shellfish required to yield a stated quantity of prepared or partially-prepared product. The conversion factors used are those which have been calculated as most accurate for application for all districts throughout the year as a whole.

RETURN showing, by Provinces, the Quantities and Values of all Sea Fish caught and landed in a GREEN STATE, and the estimated proportion of the catch MARKETED, or intended to be marketed, in a fresh, pickled, canned, etc., state, during the twelve months ended December 31, 1932.
